Professional Summary

Computer Science Engineering student seeking an opportunity to contribute to software development, solve real-world problems, and grow in a dynamic professional environment.

Education

NBN Sinhgad College of Engineering, Solapur <i>B.E. in Computer Science & Engineering — CGPA: 9.15/10</i>	2022 – 2026
Chh. Shahu Maharaj Sainik Vidhyalaya, Udgir <i>Higher Secondary Certificate (HSC) — MSBSHSE — 81.60%</i>	2022
Manavya Vikas Vidhyalaya, Degloor <i>Secondary School Certificate (SSC) — MSBSHSE — 91.60%</i>	2020

Internships

Java Developer Intern <i>SoftGrid Technology Pvt. Ltd.</i>	Jan 2026 – Apr 2026 <i>Pune, Maharashtra</i>
- Developed and maintained full-stack web application modules using Java and modern web technologies. - Collaborated with developers to design, test, debug, and deploy software solutions. - Performed CRUD operations using databases and improved application performance. - Used Git for version control and followed software development best practices.	

Projects

CareFusion - Smart Healthcare System <i>React.js, Node.js, Express.js, MongoDB, Docker</i>	Jan 2026 – Apr 2026
- Developed a full-stack healthcare management system using React.js, Node.js, Express.js and MongoDB. - Implemented secure authentication and role-based access for patients, doctors, laboratories, pharmacies and administrators. - Built REST APIs for appointment booking, medical records and prescription management. - Containerized the application using Docker for deployment. Live: carefusion.onrender.com	
QuickMeet - Online Meeting Management System <i>PHP, MySQL</i>	June 2025 - September 2025
- Designed and developed an online meeting management system using PHP and MySQL. - Implemented meeting scheduling, participant management and responsive user interfaces. Live: quichf.free.nf	
SmartDesk AI <i>Python, Artificial Intelligence</i>	Oct 2025 – Nov 2025
- Developed an AI-powered desktop assistant using Python to automate repetitive tasks. - Implemented task automation and intelligent command processing for improved productivity.	

Technical Skills

Languages: Java, Python, C, JavaScript
Frontend: HTML, CSS, React.js
Backend: Node.js, Express.js, PHP, Flask, Spring Boot
Databases: MongoDB, MySQL, SQL
Tools: Git, GitHub, Docker, VS Code
Core: Data Structures Algorithms, Object-Oriented Programming, DBMS, REST APIs, Agile Methodology

Achievements Participation

- Published research paper on Smart Healthcare Systems in IRJMETS.
- Winner of UGCON Project Competition at NBN Sinhgad College of Engineering.
- Participated in Hackathon at SKN Sinhgad College of Engineering, Pandharpur.

Leadership Activities

Led a team of four members to successfully develop and present academic software projects.
Organized technical events and coordinated project presentations within the department.
